

Dear BOSEF Scholars and Colleagues,

I am extending a special invitation to the inaugural gathering of our Building Ohio's Sustainable Energy Future Learning Community. This is the first in a program of events that over the course of the academic year will focus our attention on our role in building a sustainable future for our communities and state. This gathering is planned for **Saturday, September 26, 2009 between 12:30-3:00pm in the Memorial Field House Classroom Building at the Main Campus of the University of Toledo**. The program will include:

- 12:30-1:15: Lunch and introductions in the Field House Atrium
- 1:15-2:00: A tour of the this LEED Gold building will be led by the Project Manager Michael Green who will show us how this recently renovated structure achieved this level of sustainability certification.
- 2:00-3:00: Discussion of plans for activities in the coming academic year will be held in room 1040.

Saturday parking is available nearby in Lot 13 on the west side of campus off Campus Drive. A campus map can be found at <http://www.utoledo.edu/campus/maps/maincampus/index.html>. As we will need a count of attendance to plan the refreshments, please RSVP to Sharon Fischer either by email Sharon.Fischer@utoledo.edu or by phone at 419-530-5146 by **September 22**.

I am truly looking forward to meeting all of you, and to the beginning of our journey together.

Best,
Geoffrey
