6.25 CH Awarded for Successful Completion

PURPOSE
This course explores the common uses of controlled medications and associated prescribing concerns for the Advanced Practice Registered Nurse (APRN).

CONTINUING NURSING EDUCATION INFORMATION
This continuing nursing education activity for 6.25 contact hours including 1 contact hour of Category “A” and 5 pharmacology contact hours is designed to fulfill the additional hours required for APRNs with prescriptive authority in Ohio for Schedule II prescriptive authority. The activity also fulfills the requirements for education directly related to Ohio Nursing law & rules (Chapter 4723 of the Ohio Revised Code and the Ohio Administrative Code).

Success completion will require the learner to:

- Register and pay online on or before May 24, 2015
- Sign-in the day of the program
- Attend the entire learning session
- Submit a completed program evaluation at the end of the program

CONFLICT OF INTEREST STATEMENT
There is no commercial support for this program. The presenter(s) and the planners of this activity have declared that there is no conflict of interest to disclose. All speakers/presenters have signed a statement that says she/he will present information fairly and without bias.

FACULTY
Temeaka Gray, PsyD, MBA, MSN, CNP, RN
Cindy Herrera, MSN, PPCNP-BC
Patricia A. Hogue PhD, PA-C
Colleen Taylor, PhD, MSN, RN, FNP-BC

LEARNING OUTCOMES

- Recognize the fiscal and ethical implications of prescriptive authority including schedule II controlled substances.
- Identify state and federal laws and organizational guidelines and recommendations governing prescriptive authority including schedule II controlled substances.
- Identify the guidelines and recommendations for stimulant therapies utilized in the management of attention-deficit or hyperactivity disorder.
- Identify state and federal guidelines and recommendations for the use of schedule II controlled substances in acute and chronic pain management therapies and education.
- Identify the indications and contraindications for the use of schedule II controlled substances in drug therapies, including risk, evaluation and mitigation strategies for the use of opiates in the treatment of chronic pain.
- Identify methods of establishing safeguards against abuse and diversion of schedule II controlled substances.
