

## HOW WOULD YOU RATE YOUR CELL PHONE CIVILITY?

Try answering these four questions to find out!

1. You keep **your** cell phone "on" during meetings so that others can have access to you.
2. You answer the phone when you are in restaurants.
3. You talk louder on a cell phone than when you are on a landline.
4. You answer your cell phone in public places without creating space by moving at least two arm lengths from those around you.

If you've answered "yes" to all four questions, you are telecredible yet rude to those around you. If you've answered "yes" to three of the above questions, you probably annoy others when using your cell. If you answered "yes" to two of the above questions, you are better than most. If you answered "no" to all of the above questions, congratulations! You have mastered cell phone civility.
