

PI HV-500

Nonstop reliability and quality.

It's what you want and what you get from a PIC copier. PIC copiers deliver total copier productivity. If high-speed, high-performance copying is what you're looking for, then the PI HV500 is the machine for you. At 85 copies per minute, the PI HV500 lets you make even the biggest jobs manageable.

Automatic Duplexing: Make two-sided copies using the automatic recirculating document feeder. Two-sided copies save time, filing space, paper, and mailing costs.

Five-Way Paper Feed System: Big jobs are no problem for the PI HV500 with its five-way paper feeding system. A 50-sheet multiple stack feeder, three 500 sheet cassettes, plus a 2000 sheet paper deck means uninterrupted copying.

Automatic Paper Selection: Means the proper size for paper for copying is selected automatically.

Automatic Reduction/Enlargement: Have any odd-sized document you want copied? Just select the size of the copy you want and the PI HV500 will automatically select the proper R/E and paper.

Image Editing: Lets you decide what gets copied and what doesn't. Delete, center, trim, reduce, and enlarge at your discretion and control.

Other Features: Automatic Exposure, Automatic Margin Adjustment, One Touch Dual Color System, Diagnostic System, Clamshell Design and Worry Free Warranty.

- **Type:** Console
