

PI LMV-300

Copiers for all your business needs.

Nobody knows copiers like PIC and that's why PIC designs its copiers with all the features and options you want and need. This gives you a host of features that will make your copying tasks a breeze.

Automatic Duplexing: With the automatic recirculating document feeder, you'll be able to make two-sided copies from one-sided originals, one-sided copies from two-sided originals, or two-sided copies from two-sided originals. Automatic Duplexing means you'll save time, paper, and mailing costs.

Image Editing: The PI LMV-300 with its special computerized pad and pen lets you decide what gets copied and what doesn't. You'll be able to delete, center, trim, and/or reduce or enlarge only those portions of the original you want copied without destroying the original. All this and in color too, if you want it.

Three-way Paper Feed System: The PI LMV-300 three-way paper system includes two 500-sheet cassettes and a 50-sheet stack feeder that let you do nonstop copying. Attach the optional 2000-sheet paper deck and you'll be able to handle even the biggest jobs without interruption.

Dual Color Copying: Choose from red, blue and green to get your documents noticed. With PI LMV-300's dual color system and color toner cartridges, it's a snap.

Other Features: Automatic Exposure, Automatic Margin Adjustment, Diagnostic System, Clamshell Design and Worry-Free Warranty.
