

PI LV-200

Leading the way in copier technology.

For over thirty years, PIC has been the industry's leading innovator. This commitment to innovation has consistently generated new features and technology that has resulted in major improvements in copier performance and productivity.

Like all our copiers, they incorporate the latest technological advances to meet all your copying needs.

Automatic Duplexing: With the automatic recirculating document feeder, you'll be able to make two-sided copies from one-sided originals, one-sided copies from two-sided originals, or two-sided copies from two-sided originals. Automatic Duplexing means you'll save money on paper and mailing costs and produce professional quality reports at the same time.

Automatic Exposure: Means your copies will always look just right because the PI LV-200 automatically scans your original and adjusts for the correct exposure setting.

28 copies Per Minute: Big jobs are no problem for the PI LV-200 which means you'll have more time for other jobs.

Dual Color Copying: Choose from red, blue and green to make your memos, letters, or price list stand out. With PI LV-200's dual color system and color toner cartridges, it's a snap.

- **Type:** Desktop.
