

PI MV-400

Total copier performance and productivity.

PIC copiers are engineered and built to deliver outstanding quality copies time after time...every time. The PI MV-400 copier offers high speed, high volume copying plus automatic features for total versatility and flexibility.

Automatic Paper Selection: With the automatic paper selection, the PI MV-400 scans your original and automatically selects the correct size paper for copying.

Automatic Reduction/Enlargement: No need to guess anymore! With automatic R/E, just select the size of the copy you want and let the copier do the rest. It will automatically scan the size of the original and select the proper R/E and size paper.

Automatic Duplexing: With the automatic recirculating document feeder, two-sided copies are a breeze and you will save time, paper, and mailing costs.

Dual Color Copying: Choose from red, blue, green, and brown to add impact to whatever you're copying. The PI MV-400's automatic dual color system makes it as easy as touching a button.

Image Editing: Lets you decide what gets copied and what doesn't. Delete, center, trim, reduce, and enlarge at your discretion and control.

Other Features: Automatic Exposure, Automatic Margin Adjustment, Diagnostic System, Clamshell Design and Worry-Free Warranty.

- **Type:** Console.
- **Process:** Dry Toner.
- Toner Colors: Black, Red, Blue, Green and Brown.
