The Klar Leadership Academy Goals and Testimonials:

The Klar Leadership Academy Goals: The over-arching goals of The Academy are to provide our student participants with a *transformational learning experience* to build on their University of Toledo education so to enable them to better lead...

- **Themselves**
- **Others**
- **Teams**
- **Organizations**
- **Communities**

The Klar Leadership Academy Focus and Competency Development: The focus of this development process is to provide **Klar Academy** students with a unique hands-on and “difference-making” learning opportunity so as to expand and develop the following competencies:

- Ability to THINK BIGGER and create VISION!
- Skill at setting goals and delivering desired results
- Greater emotional intelligence, interpersonal and team skills
- Superior 360 Degree communication skills and networking talents
- Expanded worldview and community service mindset
- Critical thinking, creativity, and innovative thinking skills
- Greater confidence to lead others and demonstrate self-leadership
- Highly developed ethical decision-making and servant-leader behavior
- Being coachable and having a mentoring mindset

These skills and competencies are critically important to success in virtually every discipline. The curriculum has been developed with the aim of helping students in every major be better equipped to become leaders in their chosen professions.

The Klar Leadership Academy Development Vehicles: The Academy will employ a wide variety of learning experiences and methodologies to provide Academy members with a “*once in a lifetime*” opportunity to rapidly develop their leadership talents. The Academy curriculum will make systematic use of assessments, formal instruction, case studies, high-profile guest speakers, field experiences, panel discussions, mentoring, and community service activities. ***Academy Members are required to participate in the development sessions as indicated on the schedule below to qualify for The Klar Leadership Academy Certificate and Medallion of Merit upon completion of the program.***

Klar Academy Student Testimonies:

"If I could describe my experience being a part of the Klar Leadership program in just two words it would be, "Life Changing!" One of the important lessons learned during this experience was that great leaders fail. I have tried to make it known to others in my life that I can make mistakes as a leader, but showing my peers or co-workers how I can turn a negative aspect into a learning experience is essential to help further my personal development and also impact others in society!"

Trevor Cox, Supply Chain and Marketing

"I would highly recommend KLAR to every student who has the chance to participate in this incredible learning opportunity. Through KLAR, I was able to learn more about myself as a leader and how to develop my leadership skills. I had the chance to meet people from different colleges at UT and greatly expand my network. The experiences that KLAR has offered me will be something I carry with me for the rest of my life. As a leader, it is important that we continue to better ourselves and never settle because there is always room for improvement."

Hannah O'Neil, College of Nursing

"Since joining the KLAR leadership academy I have been positively impacted in both my professional and personal life. KLAR has allowed me to develop life-long skills such as emotional intelligence, networking, how to overcome my weaknesses, and many more, all to help me become a better servant leader. I would strongly recommend joining the KLAR leadership academy to anyone who has a drive to try to be the best version of themselves."

Aaron Scheuer, Exercise Science-Pre Physical Therapy

"Klar Leadership Academy provided me with some of the best leadership training I've had during my college experience. Each session deeply analyzed a specific aspect of leadership unlike many other conferences and speeches I've attended. The sessions were encouraging, and I frequently learned new leadership techniques on a Friday or Saturday session that I was able to utilize to motivate and lead my fraternity at meeting on Sunday."

Adam Fasnacht, Mechanical Engineering

"The Klar Leadership Academy impacted me professionally in astounding ways. I learned so many leadership practices and skills to take back and effectively lead my chapter, as well as my outlook and perspective on work and life. The biggest thing I learned through Klar Academy was to THINK BIG! No goal is out of reach or unattainable, as long as we create a plan and carry it out with a purpose. I recommend others participate in Klar if you are fortunate enough to get the chance because it will enhance your ways of thinking and really bring out a side of you that you did not know existed."

Ja'Vawn W. Marbury, Marketing and Professional Sales

“The experience I had with the Klar Leadership Academy was and will be unforgettable. I never thought I would be able to be a part of such an amazing group and to help so many people. The Box-Out-Hunger and Feed My Starving Children events were the greatest thing to be a part of and I plan on making it to each one from now on. I feel as if I am not afraid to take chances anymore, through my career and throughout my life. I am more comfortable with stepping up and not feeling ashamed for being a woman in charge. I cannot wait to use the resources I have learned through the academy in the future. Thank you for the amazing experience.”

Amber Myers, Intervention Specialist Program

“My experience in the Klar Leadership Academy was one of the most transformative experiences in my young life. The Academy taught me lessons that changed the trajectory of my personal life and professional career. I learned to serve humbly as a leader while having a ferocious desire for results. This dyad of service and results orientation is imperative to sustained success as a leader. Most importantly, I had the opportunity to network and build relationships with an amazing group of peers who will be great leaders in the future.”

Josh Cales, College of Business and Innovation

“The Klar Leadership Academy helped me to build the confidence and knowledge to become the leader I've always known I was. It allowed me to collaborate with a professional network of peers and professionals from the community to grow exponentially in my communication and listening skills. To me, The Klar Leadership Academy was the experience of a lifetime; to take in the knowledge from successful leaders and utilize it in my personal life, and in my academic and professional career. This development experience has shaped me in powerful ways.”

Kayli Dues, Marketing and Management

“I would recommend the KLAR Leadership Academy to everyone because it was a monumental experience and dramatically changed my outlook on leadership. My thoughts and actions transformed throughout the Academy and ended up having the mindset to be a servant leader for others. It is important that YOU take this opportunity because it WILL change you and how you interact with others.”

Alec Falkenberg, Finance and Entrepreneurship
