HOW TO USE THIS MAP

- UToledo's Major Map is a guide for you to plan for future success while you explore your University experience. The five rows of the map provide a step-by-step guide to integrate your academic courses with experiences on and off-campus that will help build your career readiness.
- Start thinking about life beyond college now and use the map to set short- and long-term goals, such as preparing for graduate or professional schools, preparing for your first career-track job and networking with others in your profession.

RESOURCES FOR SUPPORT

From orientation to graduation, there are many resources to support your University experience.

Your success coach is like your personal GPS. As you navigate from where you are to where you want to be, coaches offer one-onone guidance and support through referrals to academic support services and other campus resources, and connections to campus engagement and experiential learning opportunities. Visit utoledo.edu/success coach to connect with your success

Career Services provides comprehensive career planning and preparation services for all UToledo students in order to clarify and implement their academic and career goals. Connect with Career Services during your first year and continue working with them often throughout your academic career. Visit utoledo.edu/career to learn more about the programs, services and events to

BUILD YOUR EXPERIENCE BEYOND THE CLASSROOM

Service-learning activities offered by our department build job skills and help you network with potential employers. Our students assist the State of Ohio with restoration work eliminating invasive species at Irwin Prairie and also grow food for the community while learning about urban agriculture with our partners at The University Church (TUC) Garden.

Explore the world! Learn about the ecology of Trinidad and Tobago or other destinations in the United States through one of our field trips. On trips to Trinidad, you will kayak through a mangrove swamp, see leatherback sea turtles nesting, hike to a tropical mountain waterfall and learn about fire management.

In addition to field trips, get involved with faculty research projects and learn in the field by doing!

- Maritime
- Metroparks
- Non-Profit Organizations
- Research
- Wildlife Ranges & Rehabilitation

"I loved my time with the **Department of Environmental** Sciences. One of my favorite parts of my four years at UToledo was completing my directed research. Working on this in the hydrogeology lab helped me realize that I wanted to reconstruct wetlands after graduation."

HANNAH LAPOINT, Natural Resources Technician, ODNR, B.S. Environmental Sciences, '21

2022-23 Environmental Sciences

Department of Environmental Sciences

	1ST YEAR	2ND YEAR	3RD YEAR	4TH YEAR
