

Conversation Partners

Do you like to experience different cultures?
Do you like making people feel welcome?

Conversation Partners is a program that pairs international students primarily from the American Language Institute at the University of Toledo with Americans to better their English through simple conversation. These students come from all over the world and are eager to make American friends. Would you consider a one-semester commitment to meet with an international student for an hour a week? That time spent together can positively impact the student's life as well as your own.

- ➔ Apply online at www.GO-UT.info (follow the "Conversation Partners" link)
- ➔ Go to a short program orientation (follow the "Schedule of Events" link)
- ➔ Meet your conversation partner at "The Gathering" at UT (check website for details)
