The next generation of world leaders are right in our backyard -- studying in our universities.

Most of these students are curious and highly interested in friendship and cultural exchange. That’s why they are here!

They want to find out what our country is all about.

We have developed an opportunity for friendship that is easy and ready made, called the Toledo International Hospitality Program (TIHP).

TIHP is a friendship program where Toledo area families and individuals can make friends with an international student from the University of Toledo and do something fun with them about once a month. It is an amazing opportunity to make a friend from one of the 80+ countries represented at UT. You will have a chance to learn about their cultures, lives and faiths, and they are eager to learn about yours. This year, the international student population has passed the 2000 mark, which is approaching 10% of the student body. Many of these students will go on to become leaders in their communities and in their countries.

This semester we have many new students arriving, and about 100 of them, we estimate, will request an American Friendship Family. We really need your help!

Next steps to become an American Friendship Family:
1. Go to www.GO-UT.info, and follow the links to fill out an online application.
2. Also at the website, plan to attend one of the orientation meetings listed there under the “Schedule of Events” link.
3. Plan to attend the Harvest Party, also listed on the website.
