LETTER FROM THE PRESIDENT

Dear graduates:

Welcome to the Fall 2024 Commencement exercises. On behalf of The University of Toledo community, including our Board of Trustees, faculty, advisors, staff and alumni, we're incredibly proud of your accomplishments and excited to celebrate with you, your families and guests.

The University of Toledo is a transformative public research institution amplifying the initiative of our students, alumni, faculty and staff. We shape the next generation of doers – those who dare to do what others only dream.

You are now a part of this proud legacy.

When you began your academic journey at UToledo, you entrusted us with your dreams to land a job that aligns with your passions, to advance in a career that you find fulfilling and to positively impact your community in and well beyond the Toledo Region. It has been our privilege to share in this journey with you, to activate your potential and to empower you to achieve your goals through your own determination and dedication.

Today you are joining a network of more than 173,000 alumni who continue to make an impact in the Toledo community and around the globe. You are unquestionably prepared for success as you launch your career, and we can't wait to see what you do next.

Congratulations and Go Rockets!

Sincerely,

A handwritten signature in black ink, appearing to read "M. J. Schroeder". The signature is fluid and cursive, with a large initial "M" and "J".

Robes and hoods worn during the commencement are steeped in tradition that dates to the 11th century, when the monks who administered Oxford University in England wore shoulder capes to protect themselves from scratches when they gathered alms and hoods to protect their shaven heads from the cold. Eventually, the garb was worn daily to serve as both insulation from the damp and cold inside the university's walls and as identification that one had permission to pass into specific college buildings.

Similar practices were later adopted by the monks who administered Cambridge University in England in the 12th century and in later years by other universities administered by the Benedictine, Franciscan and Dominican monks across much of western Europe.

In the United States, the academic robes and hoods were first adopted as ceremonial attire for college officials in 1754 at the institution now known as Columbia University. In 1885, students in many of the country's colleges and universities launched a movement to permit graduating candidates to wear robes and caps during the commencement. Eight years later, an intercollegiate commission of university officials adopted the country's first code of color and design for the academic garb. Faculty soon adopted the custom of wearing gowns at commencement and other academic ceremonies. Although the code has been revised many times, today's academic regalia represents those modifications accepted in 1960 and adopted by nearly 95% of the nation's postsecondary institutions.

In the United States today, the academic robe is most often black; some institutions, however, sanction the use of specific colors. The length of the robe, the width of the sleeves' borders and the length of the hood all increase with each advanced degree.

Colors in the hoods identify both the specific field of study in which the degree was earned, as shown by the velvet border, as well as the institution which granted it, as shown by the lining. The color table provides a key to the fields of study represented by The University of Toledo's graduates, faculty, administrators and distinguished guests.

GRADUATION WITH DISTINCTIONS

Although many traditions of academe are treasured and maintained with rigor, others evolve to complement the distinct personality of the institution and its focus on students. Such was the case in the fall of 1995 at The University of Toledo, when it replaced its single, campus-wide honors convocation with more personal ceremonies hosted by the dean and faculty of each academic college.

Changes in the convocation's format led to changes in how faculty select and recognize outstanding students within their respective colleges. One significant change has been the awarding of medallions to graduates of the University Honors Program.

The University recognizes outstanding academic achievement based on grade point average in the law and baccalaureate colleges by awarding the degree *Cum Laude* (with Honors), *Magna Cum Laude* (with High Honors) and *Summa Cum Laude* (with Highest Honors). At the associate level, this designation is High Scholarship.

In addition, the University now bestows colored cords to honor all baccalaureate and associate candidates who qualify for graduation with distinction.

HONORS COLLEGE MEDALLIONS

The Honors College presents its graduating candidates with cast medallions that hang from gold ribbons and diplomas indicating the completion of all the honors requirements of their baccalaureate colleges. These candidates, the Honors College dean and the directors of each college's honors program are wearing their medallions in today's ceremony. In order to qualify for graduation with the Honors College diploma and medallion, each student must maintain at least a 3.3 cumulative grade point average, earn a substantial number of credits through designated honors courses, complete a thesis or research project and satisfy all the other requirements of his or her respective college's honors program.

HONORS CORDS

The University has awarded honors cords to all undergraduate candidates who will graduate with distinction. Blue and gold twisted cords have been awarded to each baccalaureate student who maintained a cumulative grade point average of at least 3.9 for all college work and who will be granted a diploma bearing the words *Summa Cum Laude*, the University's highest of three special honors. Blue cords have been awarded to each baccalaureate student maintaining a cumulative grade point average of at least 3.6 and who will graduate *Magna Cum Laude*, the University's second highest honor. Gold cords have been awarded to each baccalaureate student maintaining a cumulative grade point average of at least 3.3 and who will graduate *Cum Laude*, the University's third highest honor. White cords have been awarded to each associate student maintaining a cumulative grade point average of 3.3 or higher throughout his or her studies and who will graduate with High Scholarship.

MILITARY CORDS

Red, white and blue military honor cords recognize graduates who have served or are currently serving in the United States Armed Forces.

HISTORY OF THE UNIVERSITY OF TOLEDO

The University of Toledo is a nationally recognized, comprehensive, doctoral-granting, metropolitan research institution. The University was founded in 1872 by Jesup W. Scott, a public-spirited Toledoan, who donated 160 acres of land as an endowment for a university to train young people for roles in what Scott believed would be the “Future Great City of the World.” Called the Toledo University of Arts and Trades, it provided only a limited curriculum and closed its doors in 1875 due to a lack of funding. In 1884, the institution reopened as the Toledo Manual Training School after Scott’s sons gave the remaining assets of the University to the city.

In 1928, Toledo taxpayers approved a bond levy to raise funds to build a new, permanent home for the institution after many years of existing in temporary locations. Three years later, the University moved to the new Bancroft Street campus. The University continued as a municipal institution until 1967, when it joined Ohio’s system of public higher education.

On July 1, 2006, The University of Toledo merged with the Medical University of Ohio. The medical school was created by the state legislature in 1964 as a stand alone institution to help meet the country’s urgent need for physicians. Originally housed in Lucas County’s former tuberculosis hospital, the Health Science Campus is located in south Toledo in buildings designed by the internationally known architect Minoru Yamasaki. Through this merger, the University now offers undergraduate and graduate degrees in programs in the arts; humanities; social sciences; natural sciences; engineering; education; pharmacy; health professions, including nursing and medicine; and the law. It is one of only a handful of public institutions in the country that provides such a broad range of undergraduate, professional and graduate programs.

SEAL OF THE UNIVERSITY OF TOLEDO

The basic design has been used since 1931, when permission to use the coat of arms was granted by Don Jose Ballester, the mayor of Toledo, Spain. The seal recognizes the sister-city relationship between Toledo, Ohio, and Toledo, Spain.

The University’s motto, inscribed in old Spanish at the base of the seal, reads: “Coadyuvando el Presente, Formando el Porvenir,” which translates to “Guide to the Present, Moulder of the Future.” The seal bears a large, blue eagle holding a shield divided into four segments. The upper left portion is from the original Spanish coat of arms. In 2006, the seal was changed to add three new shield quadrants to represent the University’s mission of education and research and the merger with the Medical University of Ohio. The banner below the eagle includes four dates: 1872, the year the University was founded; 1884, the year it became a municipal institution; 1967, the year it joined Ohio’s system of higher education; and 2006, the year it merged with the Medical University of Ohio.
