

Enjoy our native PowerPoint integration while automatically storing courses and results online

COMING SOON! One of TurningPoint web's most prominent features is a polling environment that lets instructors enjoy the advantages of both a web-based solution and our native PowerPoint integration. A complement to our TurningPoint web platform, the integration is intuitive to use and requires only a light PowerPoint add-in.

PowerPoint Polling Advantages

- Courses and results automatically stored online – No need to manually save, export, import or update
- Access to TurningPoint courses and results from any web-enabled device
- Streamlined user experience
- More flexibility in managing results

What is TurningPoint web?

Our simple and engaging web-based platform lets instructors poll, access session files, manage results and generate reports online. TurningPoint web delivers interactive questions to any web-enabled mobile device.
