Expert Care...Sound Results

Northwest Ohio Hearing Clinic (NWOHC) delivers advanced audiology care to patients of all ages experiencing difficulty hearing and/or problems with their vestibular (balance) system.

- **Experience:** Our NWOHC team has over 60 years of expertise in examining and treating hearing loss and related disorders.
- **Specialization:** We have experience in both pediatric and geriatric audiology.
- **Assessments and evaluations:** Our NWOHC team provides medically-based assessments and collaboration with physicians when deemed necessary to offer the most comprehensive evaluation to our patients.

Providing comfort to our patients and their families is important. Our friendly and caring staff is focused on ensuring a positive experience. When you need care, we offer:

- **Technology:** We deploy the latest technology and equipment.
- **Continuity:** Patients are linked with the same audiologist throughout the process for continuity of care.
- **Education:** Patients and caregivers are given information and counseling on all treatment options.
- **Choice:** Two locations providing easy access entry for elderly and special needs patients.

Specialized Areas of Treatment and Service

Our goal for every patient is to provide a thorough evaluation and understanding of their diagnosis, and the treatment options available. Our comprehensive, diagnostic audiological assessment ensures accuracy up front and minimizes the need for repeat evaluation and testing.

**Comprehensive hearing aid dispensing program**
- Personalized consultation, evaluation and education regarding choices
- Real ear measurements to ensure optimal fit and performance
- Hearing aid repair, loaner bank and battery club
- Hearing impaired education resource center, assistive living devices

**Tinnitus education, treatment and support**
- Non-invasive, clinically proven treatment program that reduces symptoms quickly and provides long-term relief
- Team approach to assessment and treatment may include otolaryngologist, psychologist and physical therapist
- Peer patient support networking

**Vertigo diagnosis and treatment specialization**
- Specialized diagnostic testing dealing with hearing loss and dizziness: BAER, ENG/VNG, OAE and ECOG/VEMP
Randa Mansour-Shousher, Au.D., CCC-A

Randa, the owner of the Northwest Ohio Hearing Clinic, is an experienced practicing audiologist who has been serving and educating patients and the community for over 30 years. Randa spent many years as a faculty member at the Medical University of Ohio teaching aspiring medical and audiology students.

- Bachelor of Arts in Speech and Hearing - The University of Toledo (1979)
- Master of Science - University of Michigan (Cum Laude in 1981).

Randa’s postgraduate studies include pediatrics, vestibular system and hearing aid technology. She has written a chapter on “Hearing Loss with Aging,” in the Clinics in Geriatric Medicine and also reviewed other related books on audiology.
**Dianna Randolph, Au.D., CCC-A**

Dianna, organized and timely, provides accurate recommendations to patients. She joined Northwest Ohio Hearing Clinic in 2005, but has been practicing audiology for over 13 years.

- Bachelor of Arts – Kent State University (1996)
- Master of Arts - Kent State University (1998)

Dianna shares her knowledge with students rotating through NWOHC.

---

**Shelly Horvat, Au.D., CCC-A**

Shelly, a practicing audiologist for over 20 years, is skilled at setting patients and families at ease with her gentle touch and relaxed approach.

- Bachelor of Science - University of Minnesota (1988)
- Master of Arts - Kent State University (1992)

Shelly’s research interest focused on Probe Tube Microphone Replacement, which was published in *Audiology Journal*.

Amy Welman,
Au.D., CCC-A

Amy is an energetic and patient resource who guides patients through their treatment options. Throughout her undergraduate career, she became interested specifically in audiology and served a one year audiology internship at Northwest Ohio Hearing Clinic.

- Bachelor of Science in Communication Disorders - Bowling Green State University (2004)
- Doctorate of Audiology (Au.D.) - Kent State University (2009)

Amy enjoys using her skills to help patients who are developmentally challenged.
