## CerpassRx 2025 Preventative Medicine List

[www.cerpassrx.com](http://www.cerpassrx.com)

Preventive medications are defined as those prescribed to prevent the occurrence of a chronic disease or condition for those individuals with risk factors, or to prevent the recurrence of a disease or condition. Your plan values the impact these medications have on your health. You do not need to meet any deductible for preventive medications and your prescription benefits are paid immediately for these products. This list contains examples of preventive medications organized by therapy class. Medications may be added to or removed from the list periodically and the list is not all inclusive.
