

SEQUENCE FOR **PUTTING ON** MID LEVEL PPE with PAPR

Remove all personal items before starting (phones, jewelry, badges, etc.)

HAIR TIE/NET

- Tie hair back into tight bun, use hair net if long hair

PAPR

- Turn on PAPR (hose will already be connected)
- Flow test – hold hose at eye level and make sure flow meter is above both lines
- Buckle PAPR around waist and connect hose to the hood
- Place hood over head, pulling shroud around shoulders

Blue Gown

- Put on Blue Gown, fasten at back of neck
- Cover as much of hood and hose as possible
- Tie inside waist and outer waist to ensure complete coverage

Gloves

- Put on pair of blue nitrile gloves
- Pull gloves over white cuffs of gown to ensure coverage

**Use an Isolation Buddy to help you dress
with the proper PPE**

- Check each other after each step to ensure complete coverage

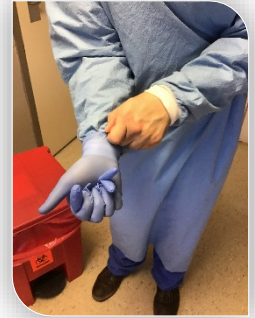

SEQUENCE FOR **REMOVING** MID LEVEL PPE with PAPR

GLOVES

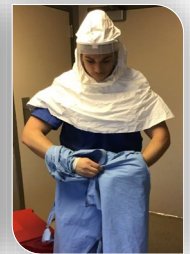

Use Alcohol Based Hand Rub(ABHR) between each step

- Grasp outside of glove with opposite gloved hand; peel off
- Hold removed glove in gloved hand
- Slide fingers of ungloved hand under remaining glove at wrist
- Peel glove off over first glove
- Discard gloves in infectious waste bin, use ABHR

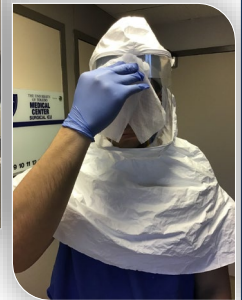

BLUE GOWN

- Untie both ties and undo the Velcro around the neck
- Grab clean inside part of gown, pull away from body
- Roll up gown place in infectious waste bin
- Use ABHR

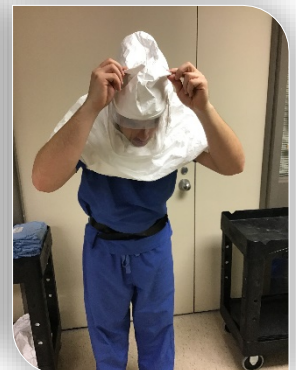

PAPR HOOD

- **Re-glove and grab a PDI Purple Top Wipe**
- In mirror use PDI Purple Top Wipe to decontaminate: front, sides, back and top of hood **for 2 minutes**
- Remove gloves in same manner as the first step
- Place gloves into infectious waste bin
- Use ABHR

PAPR/PAPR HOOD

- Exit patient room into hallway
- Shut PAPR off and use ABHR
- Disconnect hood and hose, let hose hang down and use ABHR
- Grasp top of hood and slowly pull off away from body, place on cart; use ABHR
- Unbuckle PAPR and set on cart, use ABHR

FINAL STEP

- Grab another PID wipe and re-wipe down both PAPR and HOOD

ALWAYS USE HAND HYGIENE WHEN FINISHED
