Raising Your Cumulative GPA to Common UT Program Standards

Find your current Accumulated Credit Hours table. Use this table to determine how many credit hours are needed to raise your GPA to 2.5, 2.7, or 3.0 with potential future grades.

In all cases, grades of B+ or higher are needed to attain a 3.0 GPA.

C grades increase time to goal and the level of future grades needed (GPA lowered/hours increased)

To attain a higher cumulative GPA requires consistently making grades one level above the GPA that you want; B grades are needed to achieve a C average; A grades are needed to achieve a B average.

Financial Aid Parameters:
- Must maintain a cumulative 2.0 GPA
- Must successfully complete 2/3 of credit hours attempted
- Maximum time:
  - Associate Degree - 90 Credit Hrs
  - Bachelor’s Degree - 180 Credit Hrs

Note the difference in hours between A and B grades.
