Prior to taking your first technical elective course, all students admitted during or after Fall 2017 are required to select and complete an elective track sequence. A total of five technical electives (15 hours) must be completed to satisfy the BSBE program requirements. This includes two technical electives which must be BIOE 4XXX level courses. To satisfy the track completion requirement, a minimum of three courses (9 hours) must be completed within the selected track category. The remaining two elective courses (6 hours) may be completed within any of the track categories.
