

## Seminars in Chemical Engineering

The University of Toledo  
College of Engineering  
CHEE 5930

---

<b>Instructor:</b>	Chemical Engineering faculty	<b>Class Day/Time:</b>	R, 12-12:50
<b>Class Location:</b>	Determined by faculty	<b>Credit Hours:</b>	1 hour

---

### COURSE/CATALOG DESCRIPTION

Research topics of current interest to chemical engineers will be presented by internal and external speakers in a research seminar format.

### STUDENT LEARNING OUTCOMES

Students will learn about contemporary research activities in their own research area as well as other areas of contemporary chemical engineering. Additionally students will learn about professional skills required to be successful in a modern research laboratory

Specific outcomes include:

- Increased knowledge of current research activity in areas of specific student interest as well as across the spectrum of chemical engineering activity
- Enhanced information literacy
- Development of safe laboratory work practices
- Enhanced knowledge of professional ethics
- Development of entrepreneurial skills

### PREREQUISITES AND COREQUISITES

None.

### REQUIRED TEXTS AND ANCILLARY MATERIALS

No textbooks required.

### UNIVERSITY POLICIES
