Standard Operating Procedure

The University of Toledo’s Department of Transit Services shall provide shuttle bus service to University students, faculty, and staff to maximize accessibility to, within, and between our campuses.

**Purpose**

To provide transit services that are integrated with programs which support the educational and developmental pursuits of its University community members.

**Procedure**

1. The Department promotes increased transit services that are integrated with programs which support the educational and developmental pursuits of its University members.

2. A Para transit system operated by University Transit Services provides customized/dedicated transportation between University facilities for University students and employees with a permanent or temporary disability.

3. The Department promotes increased transit ridership to reduce traffic congestion, minimize the environmental and social harm associated with automobile traffic, ease the demand for parking, and keep operating costs at a minimum. It strongly supports the mission of the University in terms of open access, outreach service to the UT community, and equity. The Department encourages open communications between itself and the University community that it serves.
