(A) Policy statement

The University supports priority registration for specific student populations. Undergraduate priority registration is offered to specific student populations with unique or special needs as determined by the office of the provost, academic affairs.

Priority registration is currently offered to the following student populations: students with disabilities who are registered with the office of accessibility, student athletes, students enrolled in the honors program, ROTC scholarship cadets, **military active duty and veteran students, members of Gold Star Families**, SALFORD exchange students, undergraduates with degree, and students admitted into one hundred percent on- line programs of study.

(B) Purpose of policy

The purpose of priority registration is to allow specific student populations with unique needs and/or circumstances to register early.

(C) Scope

This policy applies to all undergraduate students. Each college may publish detailed implementation strategies specific to that college.

(D) Procedure

Upon approval by the provost, priority registration status for the specific student populations follows the priority registration dates available from the registrar's office.
