New Course Description or Course Modifications

The systemic approach to anatomy and physiology is presented to the student. The knowledge is a fundamental portion of the education of any health care provider and is paramount for successful practice as an EMS provider. Under the current national paramedic curriculum, it has become necessary to expose students to a broader range of information. It will be the focus of this course to better equip the student with structure and function of the human body that will allow a student to recognize the homeostatic state.

The systemic approach to anatomy and physiology is presented to the student. The knowledge is a fundamental portion of the education of any health care provider and is paramount for successful practice as an EMS provider. Under the current national paramedic curriculum, it has become necessary to expose students to a broader range of information. It will be the focus of this course to better equip the student with structure and function of the human body that will allow a student to recognize the homeostatic state

Emergency Medical Technicians are entry level health care providers of emergency medical services. EMTs are clinicians, trained to respond quickly to emergency situations regarding medical issues, traumatic injuries and accident scenes. This course provides fundamental knowledge and training across the breadth of Emergency Medical Services (EMS). This is part two of 3 courses needed for licensure. Successful completion of EMT-B1, EMT B2 and EMT Field Experience courses makes student eligible for state and national certification.

Emergency Medical Technicians are entry level health care providers of emergency medical services. EMTs are clinicians, trained to respond quickly to emergency situations regarding medical issues, traumatic injuries and accident scenes. This course provides fundamental knowledge and training across the breadth of Emergency Medical Services (EMS). This is part 3 of 3 sections needed for licensure. This is to be arranged with instructors and clinical coordinator during EMT-B1 OR EMT-B2. Successful completion of EMT-B1, EMT B2 and EMT Field Experience courses makes student eligible for state and national certification.

Successful completion of EMT-B1, EMT B2 and EMT Field Experience courses makes student eligible for state and national certification.

New Prereqs: MATH 1860 and CHEM 1240. (NOTE: Change made to improve access)

Modified Prereqs (addition of CHEE 2010 and CHEM 1240). NOTE: done to ensure chemistry and chemical engineering preparation consistent.)

Modified Prereqs (addition of CHEE 3940 Co-op Experience). (NOTE: Check point needed as 3 co-op rotations needed to graduate. Starting senior classes without at least 1 co-op delays graduation.)

Modified Prereqs (addition of CHEM 2410 and MATH 2850). (NOTE: Consistent math and chemistry preparation lacking)

Modified Prereqs (addition of MATH 2850). (NOTE: Need for consistent mathematics preparation).

Modified Prereqs (addition of MATH 1860). (NOTE: Loophole of previous co-req not being completed.)

Modified prereqs (MATH 2460 Minimum Grade of C- or MATH 1860 Minimum Grade of C- or MATH 1730 Minimum Grade of C-)

Modified Prereqs (BUAD 1020 OR CMPT 1100). (NOTE: CMPT 1100 is an equivalent course to BUAD 1020)

Modified Prereqs (see proposal for full list; addition of MATH 1850 as option. (NOTE: Math 1850 also satisfies are math pre-req for this course)

Modified Prereqs (BUAD 2060 OR MATH 2600)

New Prereq (Open for ROTC Cadets that have completed both MSL 3010 and MSL 3020). (NOTE: Content from MSL 3010 - Training Management and MSL 3020 - Leadership in Small Unit Ops. must be successfully completed for students to perform at the required level in MSL 4010 - The Army Officer)

Request to reactivate. Change from Recitation to Lecture and Seminar hours. Change to catalog description. Request for Diversity US Core Curriculum status. (NOTE: The course was previously taught by faculty who retired. It is being reactivated for new faculty qualified to teach the subject matter).

Request to reactivate. Change to course name (African Politics). Change to long and short titles. Change to lecture and seminar. Request for Non-US Diversity Core Curriculum status. (NOTE: This course is being reactivated to enhance the department's comparative politics offerings at the 2000 level. Students should have greater exposure to the diverse countries in Africa.)

Requesting Non-US Diversity Core Curriculum status.

Change to course title (Ethnic American Literature). Change to long and short titles. Change to catalog description. *(NOTE: We are changing the course's name to shift the focus to literature rather than the writers themselves, especially as the course isn't necessarily about the writers' biographies. Also, this name change brings the course's title in line with the language used by the main scholarly organization in the field of Ethnic American Literature, MELUS (Multi-Ethnic Literature of the US). However, we kept "American" in the title to maintain continuity with the previous course.)*

Change to the catalog description. *(NOTE: Only change made was to rewrite course description so that it did not refer to a professor no longer at the University of Toledo.)*

Course not previously connected to DST in the CIM

Change in credit hours from Other to Lecture. No prereq for course. Change to CIP Code *(NOTE: Mistakes in prior catalogue information.)*

Change to catalog description. *(NOTE: The only change made is to delete "Not for credit in the minor" from the course description. This course does count for credit in the DST minor.)*

Course and Number Change (COMM 3800 Social Media 3 Content Management).

Change to long and short title. Change from lecture to seminar. New Prereq (COMM 3500). Change to CIP Code. *(NOTE: This course is the next progress course following COMM 2500 Social Media 1 and COMM 3500 Social Media 2 and we'd like a course number that will then follow)*

New prereq: Students must be an MCOM major to register for course. Any students majoring in Communication Studies or minoring in Communication must receive instructor approval to register. *(NOTE: Students need this course to move on in the major, but due to limited seats, Majors were being closed out of the course due to Communication Studies and minors registering first.)*

Change to prereqs (addition of COMM 2130). Request for WAC eligibility. *(NOTE: Students need the foundation writing course COMM 2130 to be successful in this class)*

Change to credit hours (from 8 to 10--4 lecture, 4 lab, 2 other). Offered in Fall. New prerequisite: Students must have current AHA CPR certification
Must have current Ohio EMT-Basic certification in good standing
Complete physical and immunizations as per College of Medicine and Life Sciences policy. Successful completion of an approved Anatomy & Physiology course
Successful completion of an EMS Entrance Exam. New CIP Code. *(NOTE: increase in clinical and lab hours and updated curriculum in alignment with State C-TAG)*

Change to credit hours (from 9 to 10--4 lecture, 4 lab, 2 other). Offered in Spring. Course not repeatable for credit. New prerequisite: successful completion of EMS 1310 Paramedic I with a grade of 80%/C or better. Course does not offer out of state experience. Change to CIP Code. *(NOTE: updated curriculum in alignment with Ohio CTAG)*

Change to credit hours (from 7 to 10--4 lecture, 4 lab, 2 other). Offered in Summer. Course is not repeatable for credit. New prereq: Successful completion of EMS 1320 Paramedic II with a grade of 80%/C or better. Change to CIP Code. *(NOTE: Increased lab and field experience hours. Updated curriculum in alignment with Ohio state CTAG.)*

Additional Information

this course is designed to be taken in
conjunction with EMT-B for non credit
certificate
