An additional twenty-four (24) semester hours must be completed in 1000-2000 level classes chosen by the student to support transfer to a Baccalaureate degree program, or fulfill personal interests. Students may elect to enroll for entry-level classes in the major of choice and fulfill program pre-requisites through the completion of these hours.

Many popular majors like Criminal Justice, Communication, and Psychology have a series of classes at the 1000-2000 level that must be completed by all major and these classes align perfectly with the General Studies curriculum.

Students will also have the benefit of completing an intermediate credential en route to the Bachelor's degree, which may aid in persistence and retention to graduation at a higher level. At a minimum, students will have completed a suite of transferable classes that may apply to nearly all baccalaureate degrees.

### CHANGES AND REASONS FOR CHANGES

Requesting the elimination of the Biomechanics concentration from the Exercise Science major. The enrollment in this concentration has been consistently and appreciably below the minimum expected requirements. Many of the students previously enrolled in this concentration are now matriculating through similar programs offered by biomedical/bioengineering programs due to the career opportunities upon graduation.
