Comments/Notes:

This is a minor modification the course title and description to allow us to incorporate globally-significant ecosystems in northwest Ohio and southeast Michigan, including the Oak Openings and Lake Erie. We also added some flexibility in the pre-requisites. The course is cross-listed with FRRS 4790 and FRRS 7790.

Rationale:
No change in course content. This is a minor modification the course title and description to allow us to incorporate globally-significant ecosystems in northwest Ohio and southeast Michigan, including the Oak Openings and Lake Erie. We also added some flexibility in the pre-requisites.

Course modification form.

As indicated on the form, there is no change in course content. This is a minor modification the course title and description to allow us to incorporate globally-significant ecosystems in northwest Ohio and southeast Michigan, including the Oak Openings and Lake Erie. We also added some flexibility in the pre-requisites.
