

Defense Acceptance and Intellectual Protection

DUE: Immediately upon scheduling the defense date. Students with a thesis or dissertation requirement must complete this two-part form with their adviser for approval to present/defend their paper, as well as ensure that any invention or proprietary information contained in the thesis/dissertation and presentation/defense of the paper is legally protected. Completing this form ensures that access to the thesis/dissertation or presentation/defense, which might disclose an invention, is determined at the direction of the student and faculty adviser. Upon public disclosure of an invention, all international patent rights are lost and a one-year bar date is set to file a patent in the U.S., or all rights are lost.
