The purpose of this research methods course is to explore prominent methods of and approaches to Conceptual Analysis and Textual Interpretation. These methods and approaches constitute the research tools in the field of educational theory and social foundations, among other fields of inquiry. The central goal of the course is to equip doctoral students in the field of educational theory and social foundations, among other students whose fields engage in theoretical research, the understanding and skill necessary to engage in theoretical research.
Course Description

The purpose of this research methods course is to explore prominent methods of and approaches to Conceptual Analysis and Textual Interpretation. These methods and approaches constitute the research tools in the field of educational theory and social foundations, among other fields of inquiry. The central goal of the course is to equip doctoral students in field of educational theory and social foundations, among other students whose fields engage in theoretical research, the understanding and skill necessary to engage in theoretical research.

Objectives

(1) Students will demonstrate a critical understanding of the nature of the methods of and approaches to conceptual analysis and textual interpretation through the direct application of those methods to normative theory development, analysis, and justification;
(2) Students will demonstrate skill in the application of the methods of and approaches to conceptual analysis and textual interpretation through the development, analysis, and justification of specific theoretical arguments and analyzes.

Required Texts

*Recommended readings are listed under each topic in the Course Outline below.*

**Pedagogical Approach and Assessment of Learning**

The class is structured by and employs a pedagogy of reflective inquiry. This pedagogy calls upon students to engage in critical reflection and inquiry to formulate and deepen understanding and skill based upon a deep comprehension of the subject matter. To elaborate, the pedagogy includes four dimensions: (1) the acquisition and deepening of background knowledge; (2) the understanding of a broad professional and philosophical vocabulary, including key concepts; (3) deep comprehension; and (4) application, including critical analysis. The following **required activities** instantiate these pedagogical dimensions:

1. **Readings, Lectures, and Notes:** background knowledge and comprehension will be acquired and deepened through *reading* the course readings, which constitute an inquiry and dialogue with leading normative theorists. Careful, thoughtful reading of the course materials and attention to lectures and notes is essential to the development of background knowledge and comprehension.

2. **Discussions and Dialogue:** all four of the pedagogical dimensions will be developed through discussion and reflective dialogue. Discussion will occur through the formulation and articulation of questions and thoughtful responses to questions formed and articulated by your instructor and classmates.

   To foster dialogue you will formulate and articulate a discussion question (or questions – at least one question is required, but you are invited to post more) for each of the six topics above. Once you have formulated your question you will present your question in class. These questions can be questions of clarification, however, analytic questions are preferred and encouraged. Attempt to ask questions that probe, analyze, interrogate, and/or infer.

3. **Analytic Projects:** all four of the pedagogical dimensions will be developed through the projects. You will be required to submit two analytic projects, one engaging the methods of conceptual analysis and the second the methods of textual interpretation. Each project will consist of an article length paper, approximately 20 pages. The conceptual analysis project will articulate and justify a choice of methodologies of conceptual analysis studied in the course and an application of those methodologies to the analysis and/or construction of a theoretical argument that defends a specific proposition or propositions. The textual interpretation project will articulate and justify a choice of methodologies of textual interpretation studied in the course and an application of those
methodologies to the construction of a theoretical argument that defends a specific interpretation of the meaning of a particular text—an articulated theoretical argument.

Assessment

Performance in the course will be evaluated in terms of the following: active and thoughtful class participation (20% of the grade), two analytic projects (60%--30% each), and oral presentations of each project (20%).

**Statement of Inclusion and Civility**

In concert with the University of Toledo’s values and expectations, the faculty within the Judith Herb College of Education, Health Science and Human Service upholds the tenets pledged by the University to respect and value personal uniqueness and differences. Specifically, we will actively participate in the initiatives of the University to attract and retain diverse faculty, staff, and students; to challenge stereotypes; and to promote sensitivity toward diversity and foster an environment of inclusion in all curricular and extra-curricular activities.

Hence, all students enrolled in this course will be expected to:
• Promote a collaborative and supportive educational environment in a diverse community
• Treat every individual with kindness, consideration, dignity, and respect regardless of:
  ➢ Gender,
  ➢ Race/ethnicity,
  ➢ Religion,
  ➢ Sexual orientation,
  ➢ Impairment(s)/Disability(ies),
  ➢ Social economic status,
  ➢ Political views, and
  ➢ Other element(s) of diversity

**Academic Accommodations/Accessibility**

“The University of Toledo abides by the Americans with Disabilities Act (equal and timely access) and Section 504 of the Rehabilitation Act of 1973 (non-discrimination on the basis of disability). If you have a disability and are in need of academic accommodations but have not yet registered with the Office of Accessibility (OA) (Rocket Hall 1820; 419.530.4981; officeofaccessibility@utoledo.edu) please contact the office as soon as possible for more information and/or to initiate the process for accessing academic accommodations. I also encourage students with disabilities receiving accommodations through OA to discuss these with me, after class or during my office hours, so that I may be better informed on how to assist you during the semester” (Faculty resources, 2012, “Academic accommodations,” para. 4).

**Academic Honesty**

All acts of plagiarism and cheating are significant acts of academic dishonesty and will result in automatic failure in the course and probable dismissal from the university. Make sure that the work you put your name on is in fact your own work.
