Impact on student learning (attach additional pages if needed):

Dartfish software is used by undergraduate and graduate students in Kinesiology who are involved in conducting basic 2-D analyses of human motion. It provides an easy-to-use system for motion capture and analysis that can be interfaced with a standard camcorder. Students in lab classes have assignments that are completed using DartFish, and students use DartFish for work on Senior Project and graduate student research project. **This request is to add two more licenses for Dartfish to those in HH 2501, to meet the IT requirement that all computers in that lab be loaded with the same software.**

- ***Equipment/Technology purchased with Tech Fee funds is for student use only. It cannot be filtered or "passed-down" to faculty or staff.***
- All outdated or broken Tech Fee equipment/technology must be returned to the Tech Fee Committee for retirement or disposal.
- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT.
