<p style="color: red; margin: 0;"><b>Impact on student learning (attach additional pages if needed):</b></p> <p>Room HH 1406 has recently been converted into a dedicated space for use in teaching lab sections of a number of different KINE undergraduate and graduate courses. Presently, there is a 42" flat panel monitor in the room for displaying information during instruction and/or output from the various computers in the room. As we now typically have larger groups using the room than previously, the monitor is inadequate. <b>This request is to install a SmartBoard system in the room, which will provide for a much larger display and also add the many features of interactive use of which SmartBoards are capable. This will undoubtedly enhance the student's experience and opportunities to participate actively in the lab experiences.</b></p>					

- **Equipment/Technology purchased with Tech Fee funds is for student use only. It cannot be filtered or "passed-down" to faculty or staff.**
- All outdated or broken Tech Fee equipment/technology must be returned to the Tech Fee Committee for retirement or disposal.
- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT.
