**Impact on student learning:**

Technology changes quickly and young children are using technology earlier and earlier with each passing year. iPads are quickly replacing computers and textbooks in many classrooms and we want to be sure that our students are 'in the know' and can use the new technologies to impact their teaching and student learning. iPads allow our students to understand how specific applications can be used in sync with their lesson plans to help students master content. The goal of the early childhood faculty will be to use iPads in our courses to illustrate and introduce applications to students and how they can be used to teach children not only in our college classrooms but also in their practicums and eventually in their own classrooms.

- ***Equipment/Technology purchased with Tech Fee funds is for student use only. It cannot be filtered or "passed-down" to faculty or staff.***
- All outdated or broken Tech Fee equipment/technology must be returned to the Tech Fee Committee for retirement or disposal.
- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT.
- For software, please note below if you are requesting it as a one-time expense or as an on-going fixed expense.
