Impact on student learning:

This is a request to upgrade software that we have used for many years. The upgrade is required because the version which we now have is not compatible with Windows 7. This software is used frequently in a number of our courses and is absolutely essential to the success of our program. The software is used entirely by students, and this upgrade will be a one time cost.

- ***Equipment/Technology purchased with Tech Fee funds is for student use only. It cannot be filtered or “passed-down” to faculty or staff.***
- All outdated or broken Tech Fee equipment/technology must be returned to the Tech Fee Committee for retirement or disposal.
- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT.
- For software, please note below if you are requesting it as a one-time expense or as an on-going fixed expense.
