a) Where did the old equipment come from? unknown

b) Where will old equipment go? n/a

5. Where will new equipment be located (room number, building, etc.)? HSHS 1240A

DATE: 2/23/12

GRAND TOTAL:

\$450.95

RATIONALE: (State below the justification for this request. Please keep your response limited to 100 words)

We have one computer with "BoardMaker" installed on it. Many of the clients we work with use symbols found on "BoardMaker" software. Color helps a significant portion of our cliental help to differentiate between symbols allowing them access to communication through use of symbols. While the students have access to color printing in computer labs around campus, those computers do not have "BoardMaker" installed on them. The printer will be located in one of the student workrooms in the main office of the speech clinic so printing can be monitored. This will allow our students to be more effective clinicians.
