<b>Location equipment of software will be used</b>	Computer in 3100H, Materials Room 3100J
----------------------------------------------------	-----------------------------------------

**Impact on student learning:**

The WatchMinder is a simple wristwatch that can easily be programmed to set up discreet vibrating reminders throughout one's day. Invented by a child psychologist, the WatchMinder was designed to aid children with Attention Deficit Disorder (AD/HD) and others with special needs in staying focused, managing their time, and modifying their thoughts and behaviors. Because a beeping reminder can be disruptive in the classroom, the WatchMinder was designed with a unique vibration system which allows the watch to discreetly cue the user with a light vibration on the wrist. The WatchMinder can be concurrently programmed to discreetly cue the user on set or random time intervals. For example, a student with AD/HD might program the watch to remind himself to "Pay Attention" every 30 minutes between 8:00 AM and 3:30 PM.

- ***Equipment/Technology purchased with Tech Fee funds is for student use only. It cannot be filtered or “passed-down” to faculty or staff.***
- All outdated or broken Tech Fee equipment/technology must be returned to the Tech Fee Committee for retirement or disposal.
- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT.
- For software, please note below if you are requesting it as a one-time expense or as an on-going fixed expense.
