JHCEHSHS STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission:

Form Updated: 12/10/12

1. Submitter must obtain all required information from the desired vendor(s). An official quote from the vendor must be attached.
2. Only one request per Request Form. This request must be reviewed, approved, and submitted by the requesting program's Department Chair.
3. The Dept. Chair may email this request to the Tech Fee Director. *Since some departments will have multiple requests, please rename request in the following format: Dept # (rank, 1 being the highest priority) and a brief title*

Dept. making request:	Criminal Justice/Social Work/ Legal Specialties	Requesting Faculty:	A.M. Dier Kasey Tucker-Gail	Date Submitted:	January 31, 2013
-----------------------	--	---------------------	--------------------------------	-----------------	------------------

IMPORTANT: Attach an official quote from the vendor.

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
1. Crime Scene Drawing Templates	Crime Scene Supplies 3440 N. 16 th Ste #4 Phoenix, AZ 85016 www.crimescene.com	6-BA-5425	16.50	25	425.50
2. Footprint/Tire Casting Frames		4-1105	20.85	4	83.40
3. Cameras Cannon Powershots	PC Richards www.pcrichards.com	SX50HS	430.00	4	1720.00
					2228.90 Total
Course(s) where item(s) will be used	Criminal Investigation I, II, III and Child Advocacy certified program	Expected life of product (years)	5yr	# Students Impacted per Year	200
Location equipment or software will be used/stored	HHS Forensic Science Lab Rm 3011	Will Tech Fee funds be needed for annual renewals or maintenance?		no	
Provide a brief description of the technology requested*:					
<ol style="list-style-type: none"> 1. Crime Scene Drawing templates are plastic templates used for drawing crime scenes correctly and efficiently. 2. Footprint and Rite Casting Frames are used to collect evidence. 3. Cameras are used to document and photograph crime scenes. 					
Briefly describe how the technology will be used (function)*:					
<ol style="list-style-type: none"> 1. The crime scene drawing templates are used to document and diagram crime scenes. <u>They are reusable.</u> Students will use these in conjunction with multiple tools, like the forensic bodies, cameras, casting frames and other technology provided by the tech fee as part of the overall process of learning crime scene investigation through technology. 2. The footprint/tire casting frames are used as a form of evidence collection. <u>They are reusable.</u> Students will use these frames in conjunction with other tech fee technology to collect evidence as a practical form of technology. 3. The cameras will be used to document crime scenes. <u>They are reusable.</u> Students will use these cameras to document crime scenes and collect evidence. 					

The investigative process requires several steps and all of these pieces of applied and practical technology will be used in that process. All of these items will be used directly by the students to learn the required investigative skills, and provide an imperative practical experience, with the use of several other pieces of technology such as ultra violet lights, microscopes, and crime scene markers already provided by the tech fee. The field of Crime Scene Investigation and Reconstruction is an ever evolving field of the criminal justice system. These requests for crime scene templates, casting frames and cameras are all part of the utilization of the current and future criminal justice technology.

Provide a rationale that Tech Fee funds are appropriate for this request*:

The crime scene templates, casting frames and cameras will be used in the teaching of numerous students, in 4 separate course offerings. Multiple sections of Criminal Investigation I, Criminal Investigation II and Criminal Investigation III are taught every year as well as the Child Advocacy Courses jointly taught in both the criminal justice and social work programs. They are reusable and provide for a variety of practical learning experiences. They move beyond the form of instruction to the practical application of knowledge and use of technology by the students.

*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.

Crime Scene sells forensic supplies and detective clothing to the public. We are also home to an interactive detective game. [View Crime Scene Games!](#)
