Location equipment or software will be used/stored	iPad cart will be used in classrooms in GH primarily. iPads will be housed in the Carver Center under the supervision of Joshua Spieles.	Will Tech Fee funds be needed for annual renewals or maintenance?	No
--	--	---	----

**Provide a brief description of the technology requested\*:**

We are requesting the purchase of an iPad cart. Please see price quote for purchasing item details.

**Briefly describe how the technology will be used (function)\*:**

At one point using videos and Powerpoints in the classroom was considered using technology. However, technology changes quickly and young children are using technology earlier and earlier with each passing year, among that technology being used most frequently by prek-12 learners are phones, iPads and other tablet related devices for playing games to academic learning

In the field of learning and instruction, iPads and iPad hybrids are projected to replace computers, Smartboards and even textbooks in many classrooms. With such changes we want to be sure that our student teachers are 'in the know'<sup>1</sup> and can use the new technologies to impact their teaching and student learning. The implementation of iPads in our college classrooms will allow our students to understand how specific applications can be used in sync with their lesson plans to help students master content. The goal of the faculty of both departments will be to use iPads in our courses to illustrate and introduce applications to our students. The courses focus on: HOW and WHY to use iPads when developing and implementing lesson plans and interventions; WHAT aspects of cognition, socio-emotional, and physiological development to consider in the use of iPads to facilitate effective learning, and WHEN and WHEN NOT to use technology for learning and instruction. The purpose of the technology integration in our undergraduate and graduate courses is to empower our student to use iPads effectively in their college classes and practicums, but most importantly in their later professional work environments.

**Provide a rationale that Tech Fee funds are appropriate for this request\*:**

This purchase is appropriate for technology fee funds as the iPads are for student use in classrooms only. The cart is delivered to the classroom and students use them to learn how to apply iPad technology to classroom teaching and lesson planning.

**\*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
