

JHCEHSHS STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission:

Form Updated: 12/10/12

1. Submitter must obtain all required information from the desired vendor(s). An official quote from the vendor must be attached.
2. Only one request per Request Form. This request must be reviewed, approved, and submitted by the requesting program's Department Chair.
3. The Dept. Chair may email this request to the Tech Fee Director. *Since some departments will have multiple requests, please rename request in the following format: Dept # (rank, 1 being the highest priority) and a brief title*

Dept. making request:	Kinesiology	Requesting Faculty:	Sarah Long	Date Submitted:	2/5/13
IMPORTANT: Attach an official quote from the vendor.					

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
Welch Allyn Ophthalmoscope	Medco 500 Fillmore Ave. Tonwanda, NY 14150	11710	\$208.82	1 of each	\$892.36
Welch Allyn Oscope		556735	\$195.23		
Rapid Form Vacuum Splint Kit		80570	\$389.06		
Bayer Contour Glucose Strips		240344	\$99.25		

Course(s) where item(s) will be used	KINE 2610, 2620, 2710, 2720, 3610, 3710	Expected life of product (years)	5+	# Students Impacted per Year	45-50
Location equipment or software will be used/stored	KINE 2510/AT Lab	Will Tech Fee funds be needed for annual renewals or maintenance?		No	

Provide a brief description of the technology requested*: Oscope and Ophthalmoscope attachments are used during the evaluation of ear, eye, nose and/or facial injuries. Both are interchangeable attachments to be used with rechargeable handles. Vacuum splints are used to immobilize/stabilize a suspected fracture or injured extremity so that the patient may be transported. They work by forming a moldable but rigid splint around the injured area when the air is removed using a manual air pump.

Briefly describe how the technology will be used (function)*: All three pieces of equipment which are now mandatory skills which are needed for students enrolled in our Athletic Training Education Program. Our accreditation standards require that students are instructed on the proper use of such equipment as well as provided the opportunity to practice with actual equipment during their classes. All three items are consistent with equipment used in current athletic training practice, therefore our students will be exposed to and given the opportunity to work with equipment that they will encounter and use during actual clinical practice.

Provide a rationale that Tech Fee funds are appropriate for this request*: These items are in the category of capital equipment and will be used in a variety of classes over the entire ATEP curriculum. Per CAATE accreditation requirements, AT laboratory equipment should be working and up to date with current athletic training practices so that students are given real-life experience. These experiences will keep our UT students competitive for jobs in the current healthcare environment.

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
