Provide a brief description of the technology requested*: Updgraded laptops for Paralegal Studies conference room.

Briefly describe how the technology will be used (function)*: The lab's laptops are used by students for completion of outside class projects and during class for work in such classes as Mock Trial, Litigation, Legal Writing, Real Estate, and Clinic Experience.

Provide a rationale that Tech Fee funds are appropriate for this request*: The current laptops run very slow and do not boot up fast and a couple have had hard drive issues. This hinders the education and class room experience.

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
