

STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission:

Form Updated: 8/20/13

1. Submitter must obtain all required information from the desired vendor(s). An official quote from the vendor must be attached.
2. Only one request per Request Form. This request must be reviewed, approved, and submitted by the requesting program's Department Chair.
3. The Dept. Chair may email this request to the Tech Fee Director. *Since some departments will have multiple requests, please rename request in the following format: Dept # (rank, 1 being the highest priority) and a brief title*

Dept. making request:	College Computing	Requesting Faculty:	Kyle Parsons	Date Submitted:	10/8/14
IMPORTANT: Attach an official quote from the vendor.					

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
Dell KACE 2100	Dell	As quoted	17,571.50	1	30,071.50
ProConsult	Dell	As quoted	12,500.00	1	
Course(s) where item(s) will be used	None	Expected life of product (years)	8-12	# Students Impacted per Year	2800 approx
Location equipment or software will be used/stored	HH2400A	Will Tech Fee funds be needed for annual renewals or maintenance?		Yes \$5,200 starting in 2018	
<p>Provide a brief description of the technology requested*: This is a server and software that allows us to install the operating systems and setup the computers in labs, research areas, classrooms, and the checkout system</p>					
<p>Briefly describe how the technology will be used (function)*: This system will be used by the College Computing staff to install operating system and images (operating systems packaged with various software) quickly and efficiently by letting us perform these tasks to dozens of computers at a time using very fast network methods</p>					
<p>Provide a rationale that Tech Fee funds are appropriate for this request*: All tech fee computers need to be imaged (a process of installing an operating system and setting it up in an identical method to other computers) multiple times during their usage period. Right now College Computing is using a software called Ghost. Ghost is becoming obsolete. We are having difficulty deploying operating systems to newer computers. This is system is supported by Dells and is guaranteed to work with Dell's old, current, and future systems.</p>					

*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
