Provide a brief description of the technology requested*:

This test has administration, scoring, and reporting software that helps to identify students' academic strengths and weaknesses.

Briefly describe how the technology will be used (function)*:

All students are required to learn how to use this instrument. They must learn this measure in SPSY 5310 (offered in the summer semester) and then use it as part of their practica (SPSY 7330) and internship (SPSY 7940) field experiences. The software helps to score the tests as well as generate reports for interpretation.

Provide a rationale that Tech Fee funds are appropriate for this request*:

This is an academic assessment instrument with software and web support. It is a one-time purchase that all students will be required to learn and use.

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
