STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission:

Form Updated: 8/20/13

1. Submitter must obtain all required information from the desired vendor(s). An official quote from the vendor must be attached.
2. Only one request per Request Form. This request must be reviewed, approved, and submitted by the requesting program's Department Chair.
3. The Dept. Chair may email this request to the Tech Fee Director. *Since some departments will have multiple requests, please rename request in the following format: Dept # (rank, 1 being the highest priority) and a brief title*

| Dept. making request: | CJ, SW and LS | | Requesting Faculty: | John J. Schlageter, III | | Date Submitted: | October 8, 2015 |

IMPORTANT: Attach an official quote from the vendor.

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
Quote as attached					

| Course(s) where item(s) will be used | The McQuade Courtroom (HH 1419) serves as a classroom for the majority of Paralegal Studies classes. In addition, the courtroom is used for: a) the Criminal Forensics & Trial Practice class (cross-listed class as part of a program collaboration between Paralegal Studies and Criminal Justice programs); b) The Advocacy: Mock Trial class open to all students regardless of major; c) The Mediation class open to all undergraduate students regardless of major. This upgrade will also allow many students that could not otherwise attend UT to attend classes remotely; d). the University of Toledo nationally recognized Mock Trial Team open to all students. | Expected life of product (years) | | # Students Impacted per Year | Over 100 |
| Location equipment or software will be used/stored | **HH 1419** | Will Tech Fee funds be needed for annual renewals or maintenance? | | No. | |

Provide a brief description of the technology requested*:
Many of the classrooms in the HHS Building are mediated and functioning well. However, the courtroom was initially outfitted in 2004 and there is a desperate need for a more-up-to-date technology infrastructure in the courtroom before it becomes obsolete.

Briefly describe how the technology will be used (function)*:
A new infrastructure would: (a) allow images from separate sources to be displayed, for example, showing an image or power point for classroom instruction, showing an image from the evidence camera, showing a video or still photograph from a laptop, a limiting instruction in PowerPoint from the judge's computer; and so on (b) facilitate conversion from analog to digital equipment, (c) reduce future overhead and maintenance costs, (d) provides UT with a competitive advantage and allow students to receive the proper training needed to compete in the marketplace, (e) allow students to bring their own devices such as iPads, cellphones, laptops, and other electronic devices into the McQuade Courtroom.

Provide a rationale that Tech Fee funds are appropriate for this request*:
As stated above, an up-to-date technology infrastructure in the courtroom would benefit many students across curricula. This is the type of technology that students want to see their tech fee dollars utilized for.

*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.
- If you are submitting a request for computers, printers, scanners or software, you <u>must</u> consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
