

STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission

Form Updated 8/20/13

1. Submitter must obtain all required information from the desired vendor(s) An official quote from the vendor must be attached.
2. Only one request per Request Form This request must be reviewed, approved, and submitted by the requesting program's School Chair
3. The School Chair may email this request to the Tech Fee Director *Since some schools will have multiple requests, please rename request PDF files in the following format: Schoolname# (rank, 1 being the highest priority) example - SocialJustice1, SocialJustice2, etc*

Dept. making request:	Exercise and Rehabilitation Sciences	Requesting Faculty:	Christa Turley	Date Submitted:	09/28/2016
-----------------------	--------------------------------------	---------------------	----------------	-----------------	------------

IMPORTANT: Attach an official quote from the vendor.

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
Lindsey Jones University	Lindsey Jones PO Box 51034 Idaho Falls, ID 83405-1034 1 800 975 6129 Fax 1 800 975 6129 orders@lindseyjones.net	N/A	\$99.00	20	\$1,980.00

Course(s) where item(s) will be used	RCBS 4810 & 4150	Expected life of product (years)	1	# Students Impacted per Year	20
--------------------------------------	------------------	----------------------------------	---	------------------------------	----

Location equipment or software will be used/stored	N/A The student can login at any computer to completed the required work	Will Tech Fee funds be needed for annual renewals or maintenance?	Yes The purchase of this program will be required each year
--	--	---	---

Provide a brief description of the technology requested*:

Lindsey Jones is a web-based test preparation program that will assist our students when prepping to the National Board for Respiratory Care Examinations (Registered Respiratory Therapist (RRT) and Clinical Simulations) With this program, students are able to login at any computer station and practice taking a national board examination The program has over 17 RRT practice written examinations (2,340 total questions) and 32 practice clinical simulations This program is structured in the same manner as the examinations given by the national credentialing board for respiratory care (NBRC) By using this web-based program, students will no longer be tethered to an on-campus computer lab They will have flexibility in their learning strategies

Briefly describe how the technology will be used (function)*: are returned they are wiped and checked back out to other students.

Students will login to the Lindsey Jones University website from any computer. Each student will have their own login identity once assigned by the primary instructor (Christa Turley).

Provide a rationale that Tech Fee funds are appropriate for this request*:

The Respiratory Care Program purchased this program last academic year (2015-2016) for the Preparation for Professional Practice class (RCBS 4810). Based on the outcome results from this year's graduating class, scores are up 12 points on RRT credentialing examination compared to previous years not having this particular software. In addition, first time pass rates on the simulation examination are up 10% compared to the previous years Finally, as reported on survey results from this year's class (2016), the Lindsey Jones University practice examinations and simulations were a great help in preparing me to pass the national board examination

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology
