CHS STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission

Form Updated 12/10/12

- 1 Submitter must obtain all required information from the desired vendor(s) An official quote from the vendor must be attached.
- 2 Only one request per Request Form This request must be reviewed, approved, and submitted by the requesting program's Department Chair
- 3 The Dept Chair may email this request to the Tech Fee Director Since some departments will have multiple requests, please rename request in the following format Dept # (rank, 1 being the highest priority) and a brief title

Dept. making request:	SERS		Requesting Faculty:	Sarah Long		Date Submitted:	10/12/2017			
			A second s							

IMPORTANT: Attach an official quote from the vendor.

List one item OR group (for use as a "package") per page.

Item Name		Vendor info. (name, address, Web site UR phone #, email, etc.)	·····	Part or Model #	Cost (each)			Qty	Total	
Equipment Removal Kits	Training	Riddell 7501 Performance Ln. North Ridgeville, OH 44039		278099	\$250 +\$21.97 s	hıppın	g	2	\$521.97	
Course(s) where item(s) will be used All AT Program Courses (7 undergraduate, 6 graduate)				Expected life of product (years	rs) ¹⁰⁺ Impacted				50	
Location equipment of software will be used	Will Tech Fee funds be needed for annual renewals or maintenance?									
Software will be used/stored KINE 2510 (AT Classroom/Teaching Lab) Immediate of the consists of a helmet (with all straps) No Provide a brief description of the technology requested*: The equipment removal kit consists of a helmet (with all straps). This protective equipment worn by football athletes poses an extra complication in the event of a memory because it must be removed in a safe but rapid manner. This kit will simulate the actual pads and helmet worn by players so that athletic training students can practice appropriate and efficient removal techniques. No Briefly describe how the technology will be used (function)*: Both the helmet and shoulder pads worn by football athletes must to be removed in a specific manner as to limit the amount of motion in potentially injured structures (head and/or neck) and/or to allow access to the airway and chest of the patient in the event of a cardiorespiratory emergency. The kit will allow for a more realistic simulation of equipment removal than current methods as students will be able to actually cut straps instead of the simulated methods currently used due to limitations in supplies. The kit allows for easy and quick replacement of these parts so that multiple simulations can be run without significant delays to "reset" the situation, thus allowing more learning opportunities for all students										
Provide a rationale that Tech Fee funds are appropriate for this request*: This item is in the category of capital improvement and the annual program budget does not allow for this more significant expense Per CAATE accreditation requirements, AT laboratory equipment should be working and up to date with current athletic training practices so that students are given real-life experience										

*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.

• If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology
