| Undergraduate and graduate students in the School of Exercise & Rehabilitation Sciences receive hands-on training on how to decipher complex responses and adaptations that occur in skeletal muscle after exercise, inactivity, and disease. Students collect many samples in their projects that must be stored at a very low temperature. Currently, students are storing their samples in a freezer that is not functioning properly. The requested item will replace the current freezer |   |   |             |                                     |          |

**\*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology
