| Location equipment or software will be used/stored | University of Toledo Speech-Language-Hearing Clinic (Room 1210) | Will Tech Fee funds be needed for annual renewals or maintenance? | Ink and toner | | |
| <p>Provide a brief description of the technology requested*: The color printer will allow students to print in color within the Speech-Language-Hearing Clinic and would be networked to computers within the clinic itself.</p> | | | | | |
| <p>Briefly describe how the technology will be used (function)*: This color printer will allow students enrolled in the Speech-Language Pathology program the ability to create color materials for use in didactic coursework, as well as in practicum experiences with actual clients. This is especially important in order to enhance the levels of engagement that clients will have with these materials.</p> | | | | | |
| <p>Provide a rationale that Tech Fee funds are appropriate for this request*: Currently, the Speech-Language-Hearing Clinic does not have the capability to allow students to print in color. Students from the program typically use the computers within the clinic to complete course assignments and create materials for use in their practicum experiences. The student computers within the clinic were all purchased through tech fees. At this point, numerous students have expressed that it is inconvenient for them to have to leave the clinic in order to access color printing services.</p> | | | | | |

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
