Provide a brief description of the technology requested*:						
The School Psychology program is requesting 12 new iPads to be used by students in the program The program currently has 12 iPads that the students use on a regular basis, however 6 of these are outdated, so at this time there are not enough iPads for student use In addition to the iPads we are requesting a protective case for each (12)						
Briefly describe how the technology will be used (function)*:						
The iPads will be used by students in the department for a number of purposes First, when students are in their 3rd year internship at a site far away from campus, they use the device to facetime into class Second, students regularly use the devices to videotape and submit assignments in a number of courses within the program Third, the students use the iPads to learn about evidence based academic and behavior interventions that are then used with students in K-12 schools in the UT and surrounding areas Fourth, students use the devices to become familiar with assessment tools efficiently with iPads (e g , Behavior tracker, School Psychology Tools, administration of standardized norm-referenced instruments like the WISC-V via q-interactive)						
Provide a rationale that Tech Fee funds are appropriate for this request*:						
Technology changes quickly and young children and students are using technology earlier and earlier with each passing year. iPads are quickly replacing computers, textbooks, or become outdated by newer versions, and more importantly manipulatives in standardized norm-referenced tests used in the field of psychology (e g, WISC-IV Q-interactive) The goal of the school psychology faculty is to assure that students are prepared to apply technological devices in their field upon graduation. By having access to these devices when in graduate school it makes this preparation more likely						

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology
