**Provide a brief description of the technology requested\*:**

The equipment is a professional grade body composition analyzer used for the determination of body fat percentage.

**Briefly describe how the technology will be used (function)\*:**

This equipment will be used both in the teaching of the students about the physiology and health impacts of body composition and to expose students to the latest technology in the field for measuring body composition in patients, athletes and/or clients. This piece of equipment is highly used in the professional healthcare field, as the technology allows for quick body fat determination and does not require invasive procedures. This equipment will complement and bolster the Applied Exercise Teaching Laboratory equipment present in the HH2307 Exercise Science Teaching Laboratory.

**Provide a rationale that Tech Fee funds are appropriate for this request\*:**

Funds are appropriate as this is a capital item that is heavily technology based. This equipment will be used by over 100 students per the academic year; fall, spring, and summer.

**\*Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
