

STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission:

Form Updated: 9/05/17

1. Submitter must obtain required information from vendor(s). An official quote from the vendor must be attached. No website screen shots
2. This request must be reviewed, approved, and submitted by the requesting program's School Chair.
3. The School Chair may email this request to the Tech Fee Director. *Since some schools will have multiple requests, please rename request PDF files in the following format: Schoolname# (rank, 1 being the highest priority) example - SocialJustice1, SocialJustice2, etc. Please submit as one PDF file*

Dept. making request:		Requesting Faculty:		Date Submitted:	
IMPORTANT: Attach an official quote from the vendor.					

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
Course(s) where item(s) will be used		Expected life of product (years)		# Students Impacted per Year	
Location equipment or software will be used/stored		Will Tech Fee needed for annual renewal or maintenance? What is the annual cost?			
Provide a brief description of the technology requested*:					
Briefly describe how the technology will be used (function)*:					
Provide a rationale that Tech Fee funds are appropriate for this request*:					

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.

Indi with Snap + Core First: A powerful suite for early and symbol-based communicators. Designed to be easy-to-use and customizable, it empowers users to continue to excel in communication, learning, and language

Indi with Communicator 5: A versatile suite to help literate users with disabilities communicate more effectively. Designed to be easy-to-use and customize, it empowers users with tools for precise speech.

I-110: Built for the everyday, and not so everyday, adventures. The ultimate touch-based speech generating device for AAC features Snap+ Core First, Communicator 5, an ultra-rugged design, Gorilla Glass, IP54 classification, integrated speakers, etc.

Lightwriter SL40 Connect: Encouraging conversational interaction in all settings, the Lightwriter SL40 Connect's portable and robust keyboard based text-to speech functionality allows for effective face to face communication thanks to the out-facing daylight readable display.

I-15+: Large screen, eye controlled speech generating device. Ideal for those who rely on AAC for voice output, environmental control, computer access or long distance communication.

Gaze Viewer: Records real eye tracking data from any application, which helps you understand an individual user's physical capabilities, cognitive understanding, and use of the eye tracker.

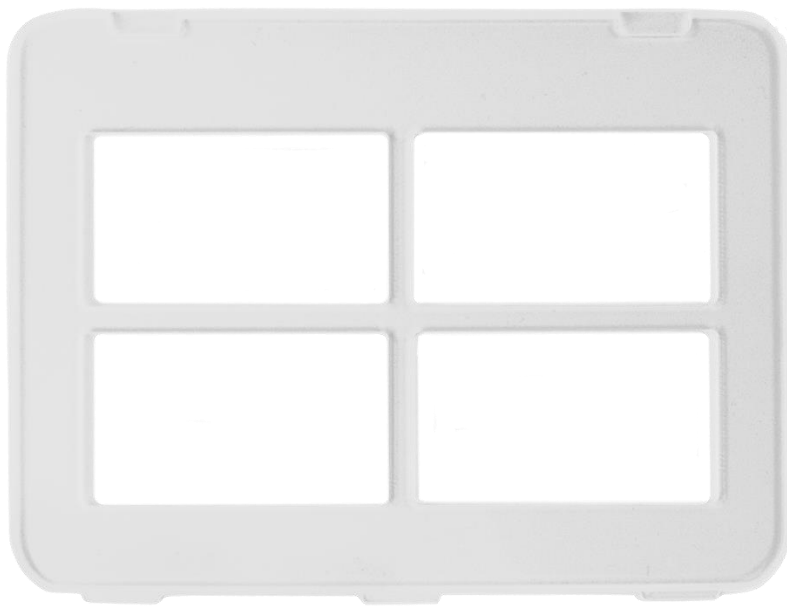

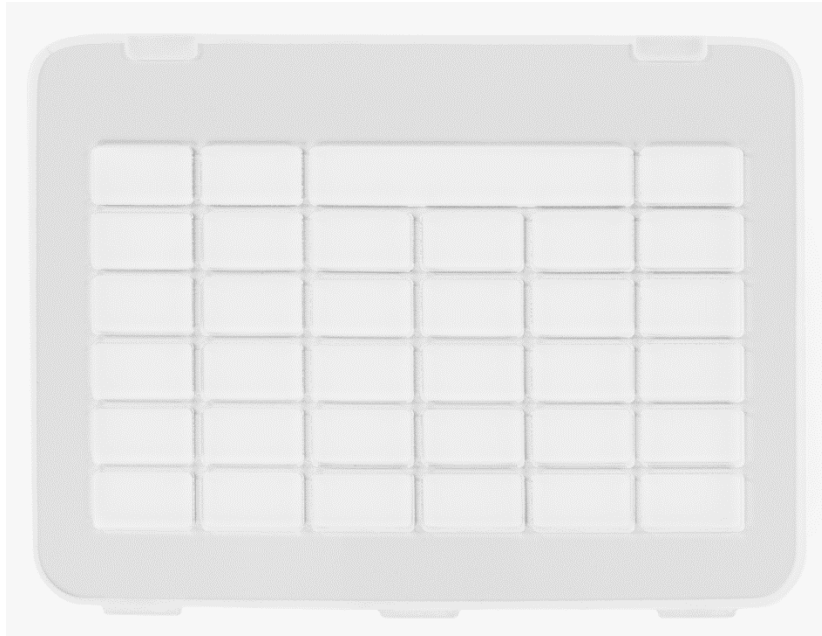

ConnectIT Floorstands "Vario": Versatile rolling floorstand for communication devices.

ConnectIT TableTop TS XL: Table mounting system to clamp your device on a table or a bookshelf, for example.

I-110 Headmouse Bracket for Origin Nano: Connect-It / Rehadapt mount plate with built in attachment point for Origin Nano head mouse.

Samples of keyguards – used to improve access to button selection for individuals with fine motor concerns

Prentke-Romich

Accent® 1400 is a dedicated speech-generating device (SGD) that offers user-friendly features to make communicating fast and easy for individuals with speech impairments. The large 14” screen is the perfect choice for individuals with complex access needs or those who want larger icons.

The Accent 1400 offers a choice of vocabulary options featuring the Unity® family with LAMP/Words for Life®, CoreScanner™, and WordCore. Other available vocabulary options include Essence® for literate adults, the UNIDAD® language system for Spanish/English bilingual use, and WordPower™. The Accent 1400 is powered by PRC’s NuVoice® software and offers built in support resources for clinicians and clients. The Accent 1400 also offers multiple access options and accommodates the NuEye® Tracking System and the NuPoint® Head-tracking System.

The Accent 1400 is configured as a dedicated device to meet the functional specifications of the Medicare/Medicaid funding requirements. The Accent 1400 is locked from computer access and all other non-communication functions. Learn more about dedicated/integrated devices.

Salttillo

NOVA chat 8 is a communication system that offers the well-known Chat software on an Android™ platform. Like all "Chats," NOVA chat 8 offers a durable yet sleek portable design, with features that include an 8" display, switch scanning, Social Chat, IVONA speech synthesizer, and many other Chat features.

A variety of vocabulary configurations provides options for each individual that uses our "Chat" systems. NOVA chat includes thousands of SymbolStix© symbols, and PCS© symbols can be added.

The **Plus models** are designed for individuals with existing or emerging literacy skills. In addition to all of the features of the Standard models, Plus models come with a 60,000 word dictionary.

Numerous keyboard pages with and without spelling prediction are included in the pre-stored vocabulary files.

Plus models also include abbreviation-expansion, a feature that allows you to encode a word, phrase or sentence under a short sequence of letters. Plus models also provide the capability to load and save text files.

Plus models are "open", meaning you can also run other Android applications on these devices.
