Provide a brief description of the technology requested*: Asking for a projector, computer, and a small podium					
Briefly describe how the technology will be used (function)*: Currently this suite of classrooms has no mediation and cannot be used as effectively as a learning environment. If there were mediation the Recreation Therapy program could use the classrooms as hands on labs and lecture environments.					
Provide a rationale that Tech Fee funds are appropriate for this request*: The space in HEC1170 is underutilized. The current suite of rooms only allows for application of skills and therapeutic procedures specific to recreation therapy, if the room was mediated, we could have students utilize it to its full potential by learning through lecture and notes and then immediately applying it to skill and modality practice.					

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
