

STUDENT TECHNOLOGY FEE REQUEST FORM

Procedure for Submission:

Form Updated: 9/05/17

1. Submitter must obtain required information from vendor(s). An official quote from the vendor must be attached. No website screen shots
2. This request must be reviewed, approved, and submitted by the requesting program's School Chair.
3. The School Chair may email this request to the Tech Fee Director. *Since some schools will have multiple requests, please rename request PDF files in the following format: Schoolname# (rank, 1 being the highest priority) example - SocialJustice1, SocialJustice2, etc. Please submit as one PDF file*

Dept. making request:	Speech-Language Pathology	Requesting Faculty:	Emily Diehm	Date Submitted:	10/16/19
IMPORTANT: Attach an official quote from the vendor.					

List one item OR group (for use as a "package") per page.

Item Name	Vendor info. (name, address, Web site URL, phone #, email, etc.)	Part or Model #	Cost (each)	Qty	Total
Augmentative and Alternative Communication (AAC) - mid-tech devices and clinical tools	AbleNet; https://www.ablenetinc.com/	see quotes	1,208.90 (total)	Multiple	3,5410 75
	Enabling Devices; https://enablingdevices.com/		2,331.85 (total)	Multiple	
Course(s) where item(s) will be used	SLP 6550:001 and 002; SLP 6000, 6010, 6940,	Expected life of product (years)	10	# Students Impacted per Year	125
Location equipment or software will be used/stored	UTSLHC AAC Lab	Will Tech Fee needed for annual renewal or maintenance? What is the annual cost?		No	

Provide a brief description of the technology requested*:

AAC refers to any type of low-, mid-, or high-tech support needed by an individual whose verbal abilities do not allow all of his/her communicative needs to be met. These devices give a "voice" to a student/client/patient, who due to a congenital, developmental, or acquired disorder, have limited verbal output.

Briefly describe how the technology will be used (function)*:

This tech fee would allow students to have hands-on experience with AAC assessment and intervention devices and tools that are discussed in class, especially in SLP 6550. Additionally, all SLP UG and G students have access to everything in the AAC lab up to approximately 20 hours per week to engage in self-study, device practice, trials with their clients, etc. Graduate SLP GAs have created self-study material for each AAC device that was previously purchased through Tech Fee (Spring 2018) to allow for self-guided student learning - and will also create training materials for these items.

Provide a rationale that Tech Fee funds are appropriate for this request*:

Tech Fee funds are appropriate for this request, as students have specifically requested this technology. The items on this request were compiled by several 2nd year graduate students who already completed SLP 6550 and were given the opportunity (by Dr. Diehm) to indicate which AAC devices and tools they would have liked to have first-hand practice with when enrolled in SLP 6550 or as a student clinician in our clinic. These requests are appropriate as it is expected that SLPs who enter the field are knowledgeable of currently available communication devices, supports, etc. for those who have complex communication needs (see information from our national organization here: https://www.asha.org/PRPSpecificTopic.aspx?folderid=8589942773§ion=Key_Issues#Roles_and_Responsibilities.)

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
