Provide a brief description of the technology requested*:

Hausmann 4002 - Weight capacity: 400 lbs. Dimensions: 31 H x 72 W x 24 H. H-Brace offers added strength and durability. High-pressure construction offers enhanced lifespan and reliability. Choice of upholstery and laminate colors available. Configurable design can be made to match your requirements.
Hausmann 1421 Weight capacity: 1000 lbs. Dimensions: 5' W x 7' L x 18" H. Foldable Design for a Great Space-Saving Solution. Convertible 18" Height. Extra Durable Vinyl Upholstery with 2" Ultra-Firm Padding. All-Laminate Surface Finish. Table Size. Laminate & Upholstery Color Variations Available.

Briefly describe how the technology will be used (function)*:

Technology will be used to teach and practice fundamental assessment and treatment skills for occupational and physical therapy students.

Provide a rationale that Tech Fee funds are appropriate for this request*:

Tech fee funds are appropriate as students benefit from the technology used in the design of this equipment. This equipment helps to ensure students in the programs gain hands-on experience using equipment commonly used in healthcare settings. The development of these skills with the equipment they will use in practice is important not only for the clients these students will serve once they graduate, but its use also increases the safety of our students. Learning these skills also involves learning proper body mechanics and strategies to protect themselves while serving their clients.

***Keep in mind that the committee members come from a variety of educational backgrounds and may not be familiar with department specific language. Please use concise, common terminology so that committee members reviewing this form will be able to fully understand the request.**

- If you are submitting a request for computers, printers, scanners or software, you must consult with College Computing and the technology staff, to acquire a quote and to make sure that this equipment/software is supported by UT and compatible with existing technology.
