

Internship Waiver Master of Public Health

All MPH students are required to complete an internship. Individuals with a minimum of one year of professional experience relevant to their major may be exempted from this requirement. All MPH students who are exempted from the internship MUST complete a scholarly project.

Students requesting the exemption must complete this form and obtain approval from the Program Director. The completed and approved form along with all supporting documentation must be submitted to the UT College of Graduate Studies on the Health Science Campus.

Supporting documentation: Describe your relevant experience in public health and link that experience to the core and appropriate major specific competencies. Include a description of how your experience meets the minimum required level of at least one year professional experience.
